

# LIMEPLUS™

## Dip

- Formulated for dogs, cat and horses
- Antifungal, antiparasitic

## Indications

For non-specific dermatoses where sulfurated lime is effective. Can be used on dogs, cats, puppies, kittens and horses.

An effective generalized topical treatment for dermatophytosis (fungal infections), and especially surface demodicosis (*Demodex gato*) in cats. May be used as an adjunctive treatment of Malassezia dermatitis, cheyletiellosis, chiggers, notoedric mange, fur mites, lice, canine demodicosis, and sarcoptic mange.

**MUST BE DILUTED PRIOR TO APPLICATION. READ ALL LABEL INSTRUCTIONS CAREFULLY.**

LIMEPLUS Dip is a leave-on treatment. Patients should be closely monitored to avoid hypothermia while the treatment dries.

## Active Ingredients

### 97.8% Sulfurated Lime Solution:

- Antibacterial and antifungal/anti-yeast properties secondary to the formation of pentathionic acid and hydrogen sulfide after application. <sup>1</sup>
- Lime sulfur has shown to have keratolytic, keratoplastic, antiparasitic, and antipruritic effects.

*“The use of an oral antifungal and topical lime sulphur (LIMEPLUS Dip) rinses for the treatment of dermatophytosis was effective and safe.” <sup>2</sup>*
